

Sa se defineasca un pachet SSIS atat utilizand procedura stocata sau script, cat si din componente, conform raportului de mai jos:

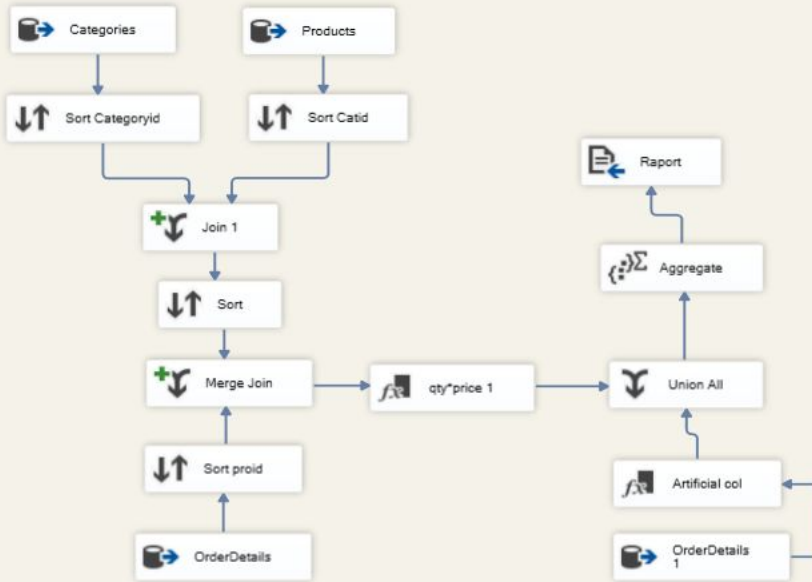

```
select  c.categoryname,  
        sum(od.qty*od.unitprice) as sales  
from Production.categories as c  
inner join  Production.products as p on c.categoryid=p.categoryid  
inner join sales.OrderDetails as od on od.productid=p.productid  
group by      c.categoryname  
union all
```

```
select  
        'Total' as categoryname,  
        sum(od.qty*od.unitprice) as sales  
from sales.OrderDetails as od
```
